

Hello SonLight Family!!!

The Ten Principles of Education Course that you find in this file, is a large amount of material. Because of its bulk, it makes for an awfully large download that many of you have been concerned about downloading. So, we have divided it up into sections to help you with doing your downloads.

In the **Ten Principles, Introduction of Course** file, you will find a section that is called, **In This Course**. This is a checklist of all the materials so you can organize the different files into a large 3-Ring binder, if you choose.

You may wish to be creative, and use colored cardstock for the front/back covers of each section or page dividers, use the catalog for reference in what colors to use (example: Nature is green, Health is red, etc.).

You can choose to organize the Ten Principles of Education training course, however it makes sense for you to do. Some like to have each section printed and comb bound, others prefer smaller 3-ring binders, and still others like to put the files onto e-readers to simply read on the go. This is your course, organize it how you please!

Please note that there are some books mentioned in the course itself to read, that are available in the main file section. It is listed there because our space is limited on Google Drive and it is also suggested for different age levels in the SonLight program. In the torrent files, we will have duplicates of the books so that as you are in each section, you will be able to find all the available resources that we have on PDF files for you at this time.

A gentle reminder is given that these materials are offered for free for personal use. We request that no books are printed and sold as this is against our copyright permissions. Some of the books contain free images that do not allow us to sell the materials for profit. If you print for a friend, please only charge them the actual cost of the materials, do not include your labors, do not include your gas monies, think of those things as a donation towards helping your friends out. Thank you for respecting our copyright permissions.

May God bless you as you seek to raise your children for Him!

Warmly,

The SonLight Volunteers
